**EXTENDED ABSTRACT (Max. 2000 words)****Abstract.**

**Keywords:** (Max. 5-6 words)

**1. Introduction**

A brief introduction will often include a review of the existing literature on the topic studied, and explain the rationale of the author's study. This section also explains the contribution of this study to the existing academic literature.

**2. Research Methodology**

This section outlines the methodology on how to collect the data whether it is quantitative, qualitative, or the combination of both.

**3. Results & Discussion (Proposed outcomes)**

A results section describes the outcomes of the data analysis, including charts and graphs. In the discussion, the authors will explain their interpretation of their results and theorise on their importance to existing and future research.

**4. Conclusion**

The author should develop the conclusion by briefly restating the research question and the result. The author should also discuss the implications of the research findings.

**5. References (Max.10)**

These are the list of academic articles and books or other primary resources utilised for the article. For references, authors are advised to use the below mention style.

1. Authors name, Article title, *Journal name* (Year), Volume, Issue, Page number, DOI. (For research/review article)
2. Authors name, Chapter title, *Book name* (Year), Publisher, Page number, DOI, ISBN. (For book chapter)
